

PAKISTAN CHEST SOCIETY

Advancing Respiratory Medicine · Advocating for Respiratory Health Nationwide

MEMORANDUM OF UNDERSTANDING

between

Pakistan Chest Society (PCS)

and

Turkish Thoracic Society (TTS)

1. Purpose

The Pakistan Chest Society and the Turkish Thoracic Society agree to establish a framework for academic, scientific, educational, and professional collaboration to advance respiratory medicine and improve respiratory health in both countries.

2. Areas of Collaboration

The Societies will endeavor to cooperate in:

- Joint scientific sessions, conferences, webinars, workshops, and CME activities.
- Exchange of faculty, speakers, and scientific expertise.
- Collaborative research and joint scientific publications.
- Fellowship, observership, and short-term training opportunities, particularly for young pulmonologists from both countries.
- Exchange of knowledge and best practices in respiratory medicine.
- Joint initiatives in respiratory health, public awareness, and advocacy.
- Collaboration in areas of mutual interest, including TB, COPD, asthma, ILDs, respiratory infections, air pollution, and interventional pulmonology.

3. Implementation

Both Societies will nominate representatives to facilitate communication and develop specific collaborative activities. Individual programs may be implemented through mutually agreed arrangements.

4. Financial Arrangements

Unless otherwise agreed, each Society will bear its own expenses. Any specific financial arrangements will be mutually agreed upon separately.

5. Duration and Termination

This MoU will remain effective for three years from the date of signing and may be renewed by mutual agreement. Either Society may terminate the MoU by providing three months' written notice.

PAKISTAN CHEST SOCIETY

Advancing Respiratory Medicine • Advocating for Respiratory Health Nationwide

6. Commitment

Both Societies express their commitment to building a strong, productive, and lasting partnership for the advancement of respiratory medicine and the benefit of patients and professionals in both countries.
